General Statement

The On-Road Compliance Assistance (ORCA) Section is responsible for implementing and overseeing compliance with existing CARB programs, rules, and regulations primarily focused on medium- and heavy-duty vehicles. These programs, rules, and regulations are intended to reduce emissions of particulate matter, oxides of nitrogen, and other criteria pollutants from over one million in-use trucks and buses that operate in California.

Competencies

All employees are responsible for understanding and demonstrating the core competencies of collaboration, communication, customer engagement, digital fluency, diversity and inclusion, innovative mindset, interpersonal skills, and resilience.

Position Description

Under close supervision and direction of the On-Road Compliance Assistance Section manager, the incumbent performs a variety of duties as follows:

% of Time	Essential Functions
35%	Assist the public by researching and assessing reported fleet information for accuracy used to determine compliance with CARB's programs, rules, and regulations primarily focused on medium- and heavy-duty vehicles and providing support with the Road Repair and Accountability act of 2017 (SB1). Coordinate the development of methods for processing reporting and any other databases

Duty Statement – Workforce

ASD/HRB-12 (REV. 12/2025) Page 2 of 7

	needed to implement CARB mobile source programs, rules, regulations primarily focused on medium- and heavy-duty vehicles. Oversee processing reported data and ensure CARB reporting systems function seamlessly (such as CARB databases working with the DMV registration database). Following agency policies and protocols to assist stakeholders with navigating the reporting system while providing consistent, accurate, pertinent, and complete responses, compliance and reporting assistance. Projects include, but are not be limited to answering and responding to phone calls, emails, and in person assistance to the public, industry representatives, air districts, etc.
35%	Work with agency staff providing expert support on medium- and heavy-duty vehicle compliance, regulatory issues or process, funding requests, and collecting and summarizing data used for technical or economic analysis. Establish policy and interpret regulatory language. Assist in modifying web pages and development and preparation of outreach materials and guidance documents that may be posted on agency websites or produced as hard copy. Projects include, but are not be limited to troubleshooting, debugging, and implementing changes to agency reporting systems, databases, data analysis and evaluation, and compliance tools.

% of Time	Marginal Functions
15%	Perform evaluations, calculations, and engineering analyses for reporting database. Conduct peer review of calculations and analyses for accuracy, and test and edit the reporting system as needed.
10%	Provide assistance as needed to support Branch or Division activities by working with agency staff in developing and preparing correspondence, briefing / issue papers, speeches, presentations, spreadsheets, reports, and updating procedure documents. Be well versed on emission control strategies used to comply with medium and heavy-duty programs, rules, and regulations primarily focused on medium- and heavy-duty vehicles. Assist with coordination, preparation, and conducting workshops, meetings, and other events.
5%	Other duties as required, such as: - Participate in meetings and coordination with other sections, branches, or divisions as needed to meet division goals and priorities - Send listserv announcements - Duplications, mailings, copying, sorting mail, filing (electronic / hard copy mail / forms) - Processing of requests from regulated entities - Implement agency protocols for logging and tracking phone calls, emails, and any other correspondence with the public or stakeholders

Typical Physical Conditions/Demands

Duty Statement – Workforce
